Manufacturer of Custom Historical Tile. Made in the USA.

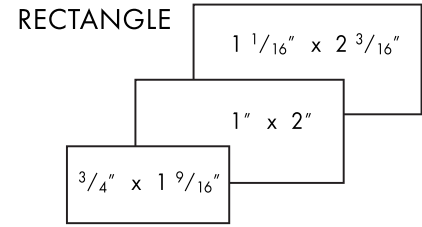

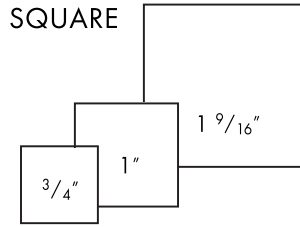

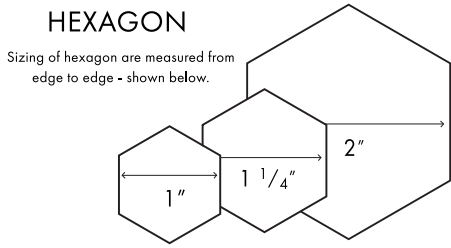

American Restoration Tile is a custom ceramic tile manufacturing company located in Little Rock, Arkansas. We specialize in reproducing the tiles of the past to facilitate restoration of historically significant buildings and residences. We use modern manufacturing technology and decades of ceramic engineering experience to exactly duplicate the sizes and colors of old ceramic tile installations. We also duplicate patterns, borders, corners, and medallions for new construction meant to recreate the feel of the past.

Visit our website for more patterns, installation photos and shop pics!

HISTORICAL COLOR PALLETTE

1895 - 1910

1910 - 1925

1925 - 1940

Colors are created with stains, oxides, and pigments mined from natural compounds. New colors were developed across the early 1900s. Availability and Popularity are shown in our color chart.

Each range shows the colors available at the time; however, trends in color vary with region and building style, much like they still do today.

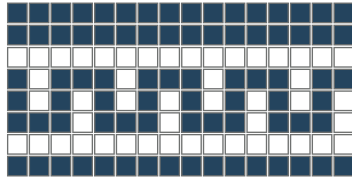

American Restoration Tile manufactures full-body porcelain ceramic tile in our factory in Little Rock, Arkansas. Our floor tile is made from raw materials sourced in the USA. Our tile exceeds the ANSI 137.1 standards for ceramic mosaic tile.

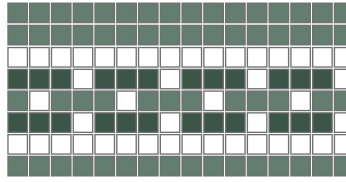

MATERIAL	FINISH	THICKNESS	EDGE	SURFACE	VARIATION	ABSORPTION	DCOF	HEAT, WATER AND FROST PROOF
PORCELAIN	UNGLAZED	1/4"	SQUARE-EDGE	FLAT	< V2	IMPERVIOUS	> 0.6	YES

HISTORICAL PATTERNS

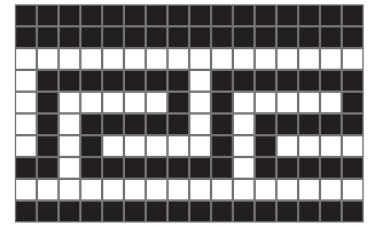

Our standard pattern selection is based on common patterns from the early 20th century. You can customize any of our patterns with any colors within our historical color palette without changing price. You may also create your own custom pattern. Visit our website for all of our historical patterns.

CONTACT A.R.T.

Email is the fastest and most efficient way to contact us. We do our best to communicate efficiently and effectively with our clients, but we also have our heads in kilns throughout the day. We are a small company where every person wears more than one hat. We're also glad to talk, and will schedule phone calls whenever you need.

LEAD TIMES

Lead times depend on our current production schedules. Typical turn-around times range from 6-10 weeks. We will do our best to accommodate your installation schedule.
